Vacation and School Closure Policy

Tuition is based on a 48 week average: 4 weeks in a month multiplied by 12 = 48. When there is 5 weeks in a month we do not charge extra, we reserve the right to take the extra week back in the form of a school closures at some point through out the year. 52 weeks minus 48 weeks leaves us 4 weeks or 16 classes a year to be closed without affecting a students tuition.*** For more information please check our Policy Manual in the Student Area of the Online Academy.

Snow Policy

If West Vally School District is closed due to snow or inclement weather than so is our school. Please check our policy manual for details on how we communicate those weather events and closures. For more information please check our Policy Manual in the Student Area of the Online Academy.

Testing

Students and Parents will be notified with a testing slip a week prior to testing whether a student is testing for a new belt or waiting until the next testing date* Make up testing is done during a normal class time. We will still have regular class testing for those students will be done as a separate rotation with and Instructor at that time. Tuition must be current to allow a student to test. There is a one time \$100 fee for Black Belt Testing.
